## *XXVI INTERNATIONAL TROPHY “CIDADE DA CORUÑA”*

### **History of our trophy**

It is 26 years since the celebration of this edition in 2023. This event is start from the arrival of our technical director: Ferenc Szabo Tatár who has a degree in Physical Activity and Sports Sciences in his native country - Hungary , to take the reins of all the modernization of the Galician Weightlifting Federation.

Our Federation begins to have relevance in Western Europe and Hungary, due to the large number of athletes that we contributed to the National Team and the quality of our lifters. With this we achieved the first participation in 1996 in the “Soroksar Cup”, where we had a youth and junior team, 4 male and 4 female, being pioneers in the creation of mixed teams, since they were the first years where female participants appeared. in international competitions.

This first championship was a great opportunity for everyone to make weightlifting known in other countries and learn what organizing an international championship really meant. In this, we faced representatives of other countries, especially Eastern Europe, due to the proximity to the Magyar country, obtaining good results, thus getting them to invite us in future editions as well as the International Meeting of Kosice in Slovenia.

The experience that participation in these events brought to our athletes could not have been more fruitful and encouraging in all aspects, sporting, social and cultural, so we always try to have a presence during the coming years.

As we already mentioned, these events are accessed by invitation, so we had to respond with an event of ours, so in 1996 we began to organize the City of La Coruña International Trophy, in which we first invited the countries to which We had attended (Germany, Slovakia or Hungary) but with the passing of the editions we were inviting more countries in Europe, such as France, Great Britain or Denmark.

In the 2023 edition we have the participation of Denmark, Germany, Hungary and Portugal. In addition we will also have a selection of the National team as well as a selection of our Federation.

As a reference in organizing events, it should be noted that in 1998 and 1999 our federation organized together with the City Council of A Coruña, the European Under-16 Championship and

the Absolute European Championship. The latter was valid for the Olympic Games and 24 world records were set. Both championships were a success at all levels: organizational, sporting, social and cultural, with which it was possible to project Galicia and especially A Coruña in the rest of Europe.

## Hotel

### EUROSTARS CIUDAD DE LA CORUÑA

Maximum tourist quality in an idyllic, privileged location

The ocean is Galicia and Galicia is the ocean. For this reason a truly Galician night is one with the murmur of the waves breaking on the cliffs and waking with the dazzling reflection of the ocean light and the soft sound of the calm, morning waters. Without any doubt, because of its location and its quality, the Eurostars Ciudad de la Coruña (City of Corunna) is the ideal accommodation for treating oneself to pleasures that are so human, so Galician, so Atlantic.

The Eurostars Ciudad de La Coruña is a true oasis in the city. Here, in this secret Corunna courtyard, we have exchanged the streets for a first class collection of sculptures; here, the noise of the city gives way to the sound of the waves: here, the sound of traffic is drowned and the wind peacefully takes its place; here, the hills rise to contemplate how the city falls in love with the ocean and, here, we take off from daily life to submerge ourselves in history contemplating, next to the Eurostars Ciudad de La Coruña, the most ancient lighthouse in the world, erected in Nero's times: the Tower of Hercules.

The hotel has many attractive features and characteristics of unquestionable quality. Built using latest generation materials, laminated wood and Travertine marble floors, the Eurostars Ciudad de La Coruña offers fantastic vistas over the bay and the entrance to the port of Corunna and, at the back, the rocky cliffs surrounding the spot on which the Tower of Hercules rises. Floods of light and huge windows are two of the prime realities of our hotel.

Our gourmet restaurant, Torremar, serves the best specialities of Galician cuisine, prepared with local produce of optimum quality. The hotel also provides other services, such as a gym.

#### Location and contact

Near the Hercules Tower. Its grate communication net allow clients to accede to the Hotel by bus, taxi or car.
